

GitLab Recognized as the Only Leader by Independent Research Firm in Integrated Software Delivery Platforms Report

June 6, 2023

According to the report, GitLab leads with a balance between solid platform capabilities and overall strategy

SAN FRANCISCO, June 06, 2023 (GLOBE NEWSWIRE) -- *All Remote - [GitLab, Inc.](#)*, the most comprehensive AI-powered enterprise DevSecOps platform, today announced it has been named a Leader by Forrester Research in The Forrester Wave™: Integrated Software Delivery Platforms, Q2 2023.

The report evaluated 13 integrated software delivery platform vendors across 26 criteria based on current offering, strategy, and market presence. GitLab scored the highest possible in the criteria of platform-incorporated security tools, test automation, roadmap, community, and pricing flexibility and transparency.

According to the report, "GitLab leads with a balance between solid platform capabilities and overall strategy." Additionally noting that, "GitLab is great for enterprises wishing to consolidate their best-of-breed toolchain into one high-performing ISDP."

The report included a customer's comment on the platform, noting that, "The CI/CD experience using secrets, environments, runners, and SAST/DAST/license scans/etc. is unparalleled."

The report also stated, "GitLab's strategy includes an on-par vision to deliver an excellent developer experience without sacrificing security or compliance. Its innovation is also good, going beyond traditional developers to include AI/ML engineering... Its roadmap gets leading scores and includes enhanced supply chain security, enhanced UI, granular security and compliance controls, and pipeline security – all things enterprises need."

GitLab enables organizations to build better software faster, increase operational efficiency and reduce security and compliance risk. Using GitLab, customers can get end-to-end value stream visibility, make their developers more productive, secure their software supply chain and accelerate their migration to the cloud.
