

GitLab Achieves FedRAMP® “In Process” Designation

06/25/2024

Enabling public sector agencies and customers in highly regulated industries to meet stringent security and compliance requirements with GitLab Dedicated for Government

SAN FRANCISCO, June 25, 2024 (GLOBE NEWSWIRE) -- All Remote - [GitLab Inc.](#), the most comprehensive AI-powered DevSecOps platform today announced it has achieved “In Process” designation at the Moderate impact level from the Federal Risk and Authorization Management Program (FedRAMP).

The FedRAMP program promotes the adoption of secure and compliant cloud services across the federal government. The authorization process includes an in-depth examination of GitLab’s data security and data governance capabilities and the security practices of its cloud services. GitLab is now listed in the FedRAMP Marketplace and continues to work toward achieving the FedRAMP “Authorized” designation.

GitLab Dedicated for Government, the company’s new single-tenant managed SaaS offering, will meet FedRAMP requirements from the U.S. government to provide customers with the benefits of a DevSecOps platform, with an added focus on data residency, isolation, and private networking to meet security and compliance requirements.
